**Dear Mr. Dunbar,**

**The impressive standing seam roof your company installed was completed this September. We are very pleased with the quality and appearance of the roof. I have had numerous contacts with various employees of your company and felt compelled to write to say that their professionalism and thoroughness was impressive. The crews worked throughout the weekend to accommodate our request that during school hours, no roofing be done. Our neighbors reported a wonderful, congenial group of workmen who were well-behaved and enjoyed the cookouts and worked steadily and competently.**

**You should be very pleased to have this caliber of staff and I know that we made a fine choice when your company was chosen to do our roof.**

**Thank you on behalf of the Townshend School Board. I also wish to thank you and your managers for making this experience so positive.**

**Sincerely,**

*Deborah Leggott*
