Dear Jayson:

Just a note to say thanks to you and the work crew for the very fine job done on our roof. It looks great and should serve us well for the rest of our lifetimes, or at least as long as we reside here in this house.

I want to say a special word about the work crew on this project. Never have I seen a group of men work as a team as closely as they did. Each one knew his assigned duties and performed them quickly and easily. Although there was the usual and expected conversation there was never any "goofing off". Breaks were minimal and seldom seemed to be taken at all. I thought I sensed that the job was continuous, even during lunch time. Each one eating, but someone working all the time. All were polite and eager to please, and willing to perform a few minimal chores while the ladder was up. (repaired soffit from your last job here)

Again, thanks to you and thanks to them for a JOB WELL DONE.

Sincerely,

Paul C. Brandon
